1. Attached are three plans for you to consider in conjunction with Secured Area 6, Second floor of the New Building. I prefer plan Number 1~~0~~ because it allows more open space at the entrance of the area.
2. Either plan, one or two, will require the same amount of equipment which I have listed as it should appear on your requisition. Plan three uses the wall space and as shown reduces your total filing capacity by 40 linear feet. Additional single units can be added of course should you decide to use Plan three and desire more filing space.
3. The lighting location shown is approximate, and the best information the Building Planning Staff could give at this time. I feel sure we are safe with either of the three arrangements and can go ahead with the order.
4. You will note that in the description of equipment there is reference to the floor plan. This plan may be forwarded to the vendor providing the "Staff Name", etc., are eliminated. Actually, I would suggest that you do this as an added assurance of getting what you ask for.
5. Let me know when I can be of further help.
